IMPORTANT NOTICE: Breastfeeding is best. Aptamil Anti-Reflux is a food for special medical purposes for the dietary management of frequent reflux and regurgitation. It should only be used under medical supervision, after full consideration of the feeding options available including breastfeeding. Suitable for use as the sole source of nutrition for infants from birth and as part of a balanced diet from 6–12 months. This product should not be used in combination with antacids or other thickeners and is not suitable for premature infants. Refer to label for details.

- Helps reduce nasal congestion by thinning the mucus and rinsing it away
- A natural and effective remedy for little sniffles/blocked noses

When children have stuffy noses, CALPOL® Saline Nasal Spray and Saline Nasal Drops help wash away built up mucus, helping them breathe more freely. And because it's a simple, natural, non-medicated treatment, it can be used right from birth. This product can be taken alongside CALPOL® Infant Suspension if pain and fever relief is also needed.

CALPOL® Blocked Nose Spray (non-medicine)

AGE: 3+ YEARS

- Gentle and easy to use nasal spray
- Preservative-free, isotonic saline nasal spray
- Used to treat blocked, dry or irritated nasal passages caused by cold and flu, sinusitis, allergy including hayfever and post-nasal surgery

Directions for parents:

- Put the nozzle into one nostril, holding the bottle vertically.
- Press the other nostril closed.
- Press the spray head once and spray deeply, breathing in at the same time.
- Then repeat in the other nostril.

CALPROFEN® Ibuprofen Suspension

AGE: 3 MONTHS TO 12 YEARS (weighing more than 5kg)

- Effective relief of aches, pains and fever
- Relief from fever for up to 8 hours
- Strawberry flavour
- Sugar & colour-free
- **Active ingredient: Ibuprofen**

Our CALPROFEN® Suspension contains ibuprofen, which starts to work on a fever in just 15 minutes and lasts for up to 8 hours. It can be used for pain relief, reducing a child's temperature, and to relieve the symptoms of cold and flu. Each pack comes with an easy dose syringe.

Adjacencies Range Guide

CALCOUGH® Children's Syrup

AGE: 1+ YEARS

- Helps relieve dry tickly coughs & sore throats
- Blackcurrant flavour
- **Active ingredients: Glycerol and Sucrose**

CALCOUGH® Children's Syrup is a non-drowsy cough liquid that has been developed by our specialists to help gently relieve dry, tickly coughs and sore throats. This product can be taken alongside CALPOL® Infant Suspension if pain and fever relief is also needed.

CALCOUGH® Infant Syrup

AGE: 3+ MONTHS

- Helps soothe and relieve tickly coughs
- Sugar & colour-free
- Apple flavour
- **Active ingredient: Glycerol**

CALCOUGH® Infant Syrup is a soothing, non-drowsy, colour and sugar-free syrup that we've specially developed to relieve children's symptoms when they're suffering with a dry and tickly cough. Each pack contains a double-ended measuring spoon.

CALGEL® Teething Gel

AGE: 5+ MONTHS

- For short-term (7 days) use where non pharmacological treatments have failed to provide sufficient relief
- Rapid relief from teething pain
- Quickly numbs the pain and helps alleviate discomfort
- Helps take care of gums, with a mild antiseptic to help fight infection
- **Active ingredients: Lidocaine hydrochloride and Cetylpyridinium chloride**

CALGEL® Teething Gel quickly relieves the pain of teething* and soothes babies sore gums with a mild anaesthetic. It also has a mild antiseptic to help fight infection. This product can be taken alongside CALPOL® Infant Suspension if pain and fever relief is also needed.

*When other non-medicinal methods such as massaging of the gums or use of teething rings do not provide necessary relief.

Environmental Sustainability Strategy

“Addressing climate change
is the greatest public health
opportunity for the century”

Lancet Commission on
Health & Climate Change

Environmental Targets

Scientific evidence shows that changes in the climate are impacting human health. Given the scale & urgency of the challenge, as a global business we have set two ambitious environmental sustainability goals for 2030

1. Net Zero Impact on Climate

How we contribute to limiting global warming caused by carbon & other greenhouse gas emissions – including 100% renewable electricity by 2025

2. Net Positive Impact on Nature

Water – how we use water & impact water quality
Materials – how we manage the use of materials to minimise waste
Biodiversity – how we impact natural eco-systems

Delivering both Environmental Targets

Reducing our environmental impact as far as possible

Aiming to put back into nature more than we take out

Investing in restorations projects to balance the remaining impact we can't reduce

Since 2010, as a global business, we have reduced...

31%

Water Usage

78%

Waste to Landfill

34%

Carbon Emissions

Our Consumer Healthcare Projects

Our cartons made from recycled cardboard, have saved over 150,000 trees across the EMEA region

Our GB NHS Charities Together + Self Care cross brand instore activation, with a 5p donation raised with each purchase

By 2025 all our toothpaste tubes will be recyclable

Customer partnerships, like our Superdrug blister return scheme in GB, saw 3.5 million packs returned for recycling in the first month alone

Voltarol cartons are 100% recyclable & in 2024 a 20% plastic reduction in the tubes is due to roll out. Our goal is for the tubes to be fully recyclable by 2030, safety & regulations permitting

50% reduction in non-recyclable packaging on Panadol in 2022 - a goal of fully recyclable packaging by 2025

For details on our Consumer Healthcare strategy & how we can partner, please reach out to your account manager to arrange a call

Did you know...

50-55% of men aged between 40-70 years old will suffer from erectile dysfunction at some point in their lives.*

Erectile dysfunction or ED is no longer an off-limits discussion. We feel that ED sufferers should not feel embarrassed to ask for advice.

Vinay Patel, Alphega Pharmacy Services and Contract Pharmacist said: "ED can occur at any age and for many reasons such as obesity, high blood pressure and stress."

Over the counter Sildenafil products such as **Almus Erectile Dysfunction Relief 50mg Film Coated Tablets** may be an effective solution for this medical condition.*

Order Almus products through the Alliance Healthcare Portal, AH Direct, your PMR or call: 0330 100 0448

Almus Erectile Dysfunction Relief Sildenafil 'P' Medicine PL Essential Information
Name of Product: Almus Erectile Dysfunction Relief 50 mg Film-Coated Tablets.
Active Ingredient: Sildenafil (as citrate).
Indications: Almus Erectile Dysfunction Relief 50 mg Film-Coated Tablets is indicated in adult men with Erectile Dysfunction, which is the inability to achieve or maintain a penile erection sufficient for satisfactory sexual performance. In order for Almus Erectile Dysfunction Relief 50 mg Film-Coated Tablets to be effective, sexual stimulation is required.
Dosage: The recommended dose is one 50 mg tablet taken with water approximately one hour before sexual activity. The maximum recommended dosing frequency is once per day. If Almus Erectile Dysfunction Relief 50 mg Film-Coated Tablets is taken with food, the onset of activity may be delayed compared to the fasted state.
Legal Category: P Pharmacy GTC status. **MA Number:** PL 08553/0621. **MA Holder:** Dr. Reddy's Laboratories (UK) Ltd, 6 Riverview Road, East Yorkshire, HU17 0LD. What is combination nicotine replacement therapy (NRT)?

Combination NRT is the use of a nicotine patch, to provide nicotine for all day craving control, along with a fast-acting flexible format for fast craving relief.

What is the benefit of combination NRT?

- Combination NRT has been shown to be more effective than the use of a single NRT product – individuals are up to 36% more likely to quit for good choosing combination therapy over a single format of NRT
- Combination NRT for smokers who want to quit is recognised by NICE and the National Centre for Smoking Cessation and Training as a way to quit.

Things to ask individuals looking to quit/try combination treatment:

- Are you a heavy smoker?
- Have you failed to quit in the past using a single NRT product?

How to explain combination therapy to a consumer:

- You can maximise your chances of quitting for good* by using the **patch for all day support** and a flexible NRT product like NICORETTE® QuickMist Mouthspray, NICORETTE® Gum, or NICORETTE® Lozenge for extra support when those intense cravings strike.

*vs patch alone.

Benefits of quitting smoking to share with your consumers:

These are just a few of the many health benefits you could experience when you quit smoking:

72 hours after quitting

Your breathing may become easier and your energy levels could increase

2–12 weeks after quitting

Your blood circulation could improve, which can help to make your day-to-day physical activities easier

10 years after quitting

Risk of lung cancer falls to around half that of a smoker

Product information

Nicorette Invisi Patch. Presentation: Transdermal patches releasing a nominal of 25mg, 15mg or 10mg of nicotine per 16 hours. **Uses:** Nicorette Invisi patch relieves and/or prevents cravings and nicotine withdrawal symptoms associated with tobacco dependence. NUROMOL

DUAL ACTION PAIN RELIEF

Contains interlocking paracetamol and ibuprofen,¹ which are released simultaneously to deliver a combination effect²

1x Nuromol Dual Action Pain Relief tablet

Provides **statistically superior pain relief than a 1 g paracetamol + 30 mg codeine** combination up to 12 hours^{3*}

Simple and convenient dosing:

Take 1 tablet, if 1 tablet does not control symptoms a maximum of 2 tablets may be taken, up to 3 times a day²

16s also available.

For mild-to-moderate pain not relieved by ibuprofen or paracetamol alone²

FROM THE MAKERS OF NUROFEN

*Based on a clinical trial.³

References: 1. Patented technology. Composition comprising a NSAID and paracetamol. 2007. Data on File. 2. Nuromol Dual Action Pain Relief 200 mg/500 mg Tablets. Summary of Product Characteristics. Updated December 2021. Accessed December 2021. <https://www.medicines.org.uk/emc/product/4967>. 3. Daniels SE, et al. A randomised, five-parallel-group, placebo-controlled trial comparing the efficacy and tolerability of analgesic combinations including a novel single-tablet combination of ibuprofen/paracetamol for postoperative dental pain. *Pain*. 2011;152:632–642.

Essential Information Nuromol Dual Action Pain Relief ibuprofen 200 mg/paracetamol 500 mg tablets. For the temporary relief of mild to moderate pain which has not been relieved by ibuprofen or paracetamol individually such as migraine, headache, backache, period pain, dental pain, rheumatic and muscular pain, cold and flu symptoms, sore throat and fever. Licence Holder: Reckitt Benckiser Healthcare (UK) Limited, Slough, SL1 3UH. Legal Classification: GSL. Information about this product, including adverse reactions, precautions, contra-indications, and method of use can be found at <https://www.medicines.org.uk/emc/product/4967>

Adverse events should be reported. Reporting forms and information can be found at www.mhra.gov.uk/yellowcard, or search for the MHRA Yellow Card in the Google Play or Apple App Store. Adverse events should also be reported to Reckitt Benckiser Healthcare (UK) Ltd on: 0333 200 5345

RECOMMEND NUROMOL DUAL ACTION PAIN RELIEF FOR FAST-ACTING, LONG-LASTING PAIN RELIEF¹

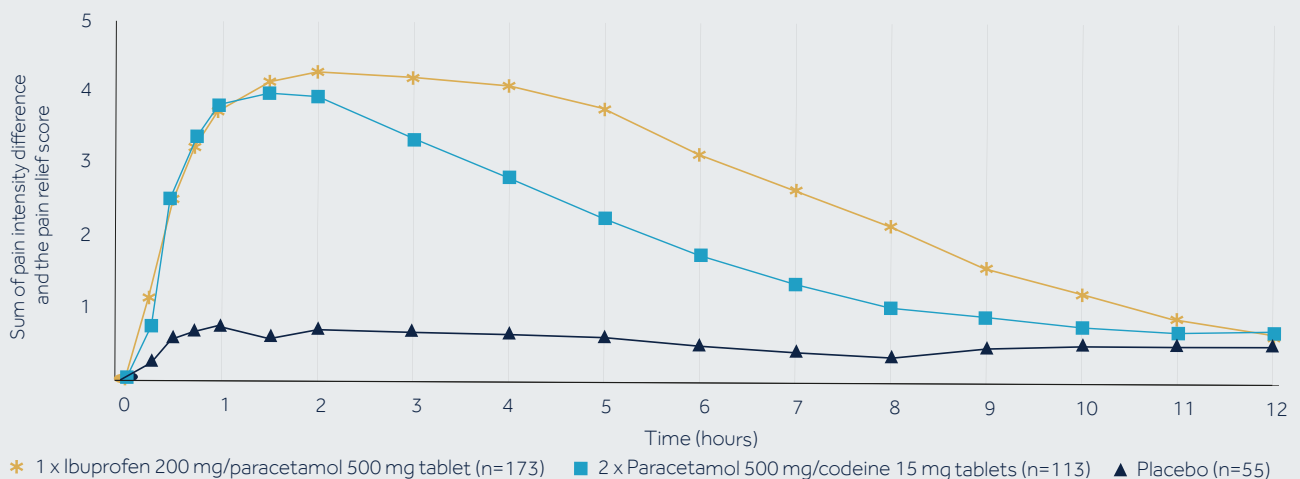

For mild to moderate pain not relieved by ibuprofen or paracetamol alone, recommend Nuromol Dual Action Pain Relief¹

Contains interlocking paracetamol and ibuprofen,² which are released simultaneously to deliver a combination effect,¹ to help reduce the complexity of separate dosing with single actives

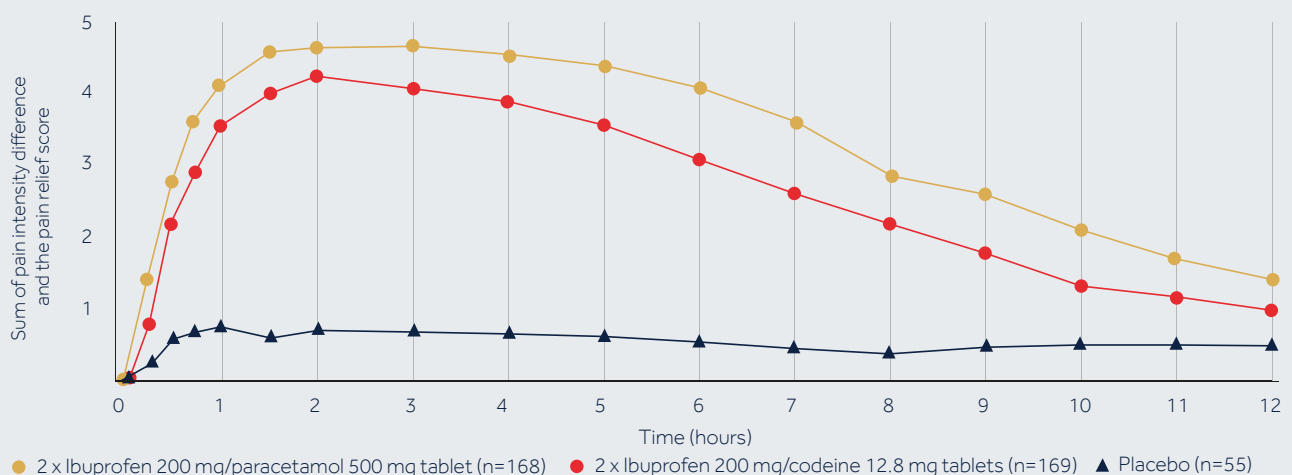

A clinical trial has shown Nuromol Dual Action Pain Relief has superior pain relief vs. OTC codeine combinations:^{3*}

- **ONE NUROMOL DUAL ACTION PAIN RELIEF TABLET PROVIDES STATISTICALLY SUPERIOR PAIN RELIEF THAN A 1 G PARACETAMOL + 30 MG CODEINE COMBINATION³**

Mean pain relief and intensity differences shown at each timepoint (intention-to-treat population). Sum of pain relief and intensity difference (SPRID) of 1 tablet of ibuprofen 200 mg / paracetamol 500 mg vs. 2 tablets paracetamol 500 mg / codeine 15 mg ($P = 0.0001$) and vs. Placebo ($P < 0.0001$) based on area under the curve (AUC).³

- **TWO NUROMOL DUAL ACTION PAIN RELIEF TABLETS PROVIDE BETTER PAIN RELIEF AT 12 HOURS THAN A 400 MG IBUPROFEN + 25.6 MG CODEINE COMBINATION³**

Mean pain relief and intensity differences shown at each timepoint (intention-to-treat population). Sum of pain relief and intensity difference (SPRID) of 1 tablet of ibuprofen 200 mg / paracetamol 500 mg vs. 2 tablets paracetamol 500 mg / codeine 15 mg ($P = 0.0001$) and vs. Placebo ($P < 0.0001$) based on area under the curve (AUC).³

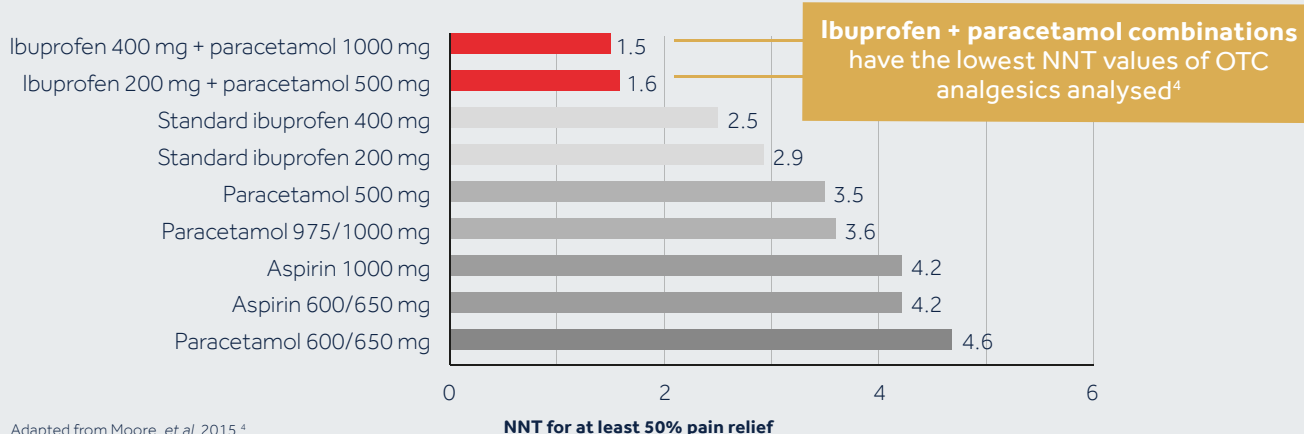

³Trial conducted in patients with post-operative dental pain following third molar extraction.

OTC IBUPROFEN AND PARACETAMOL COMBINATIONS ARE MORE EFFECTIVE THAN 21 OTC ANALGESICS⁴

In a Cochrane review of OTC analgesics for acute pain, combinations of ibuprofen + paracetamol, the equivalent dose of 1 tablet and 2 tablets of Nuromol Dual Action Pain Relief, were found to provide effective pain relief in more people than 21 other OTC analgesics analysed.⁴

The numbers needed to treat (NNT) describes the number of people who need to be treated with an analgesic for one more person to have good pain relief than if the same number had been treated with placebo. The ideal NNT is 1.⁴

Number needed to treat for an additional beneficial outcome (NNT for at least 50% maximum pain relief over four to six hours compared with placebo)⁴

NUROMOL DUAL ACTION PAIN RELIEF can offer simple and convenient dosing for the temporary relief of mild to moderate pain¹

- Take 1 tablet, if 1 tablet does not control symptoms a maximum of 2 tablets may be taken, up to 3 times a day¹
- Leave at least six hours between doses¹
- To minimise side effects, it is recommended that patients take Nuromol Dual Action Pain Relief with food¹
- Refer to GP if Nuromol Dual Action is required for more than 3 days¹

RECOMMEND NUROMOL DUAL ACTION PAIN RELIEF AS YOUR FIRST-CHOICE FOR SECOND-LINE OTC PAIN RELIEF^{1,3}

16s also available.

Advising on erection problems in a covid era

Helping customers love life again

VIAGRA CONNECT (Sildenafil 50mg) P

- For men over 18 affected by erectile dysfunction
- Maximum dose one daily, taken with water about one hour before sexual activity
- Available in packs of 2, 4 or 8 tablets

Coronavirus has affected us all in many ways. From coping with increased levels of stress to dealing with multiple lockdowns, it has been a challenge. One example is men's health, where research has associated a link between COVID-19 and erection problems (EPs).¹

We are continuously learning about COVID-19 and its potential impact on EPs. Current documented symptoms of COVID-19 may potentially have an impact on a customer's sex life - for example feeling exhausted, breathlessness and low mood. People suffering with long COVID (those who experience prolonged symptoms after catching the virus) are very likely to experience extreme tiredness, which may result in a lack of physical energy to have sex. We also need to remember that those with long COVID are likely to feel anxious and experience low mood,² which may reduce a person's sex drive.

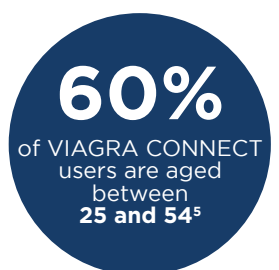

Background to EPs

EPs (sometimes referred to as erectile dysfunction) are very common in men and usually nothing to worry about.³ The factors contributing to EPs can be split into four main areas: lifestyle, medication, physical and psychological. When EPs happen more frequently, an underlying cause can exist.³ Having an awareness and understanding of the contributing factors can help support your discussions with customers.

Who are your customers?

Although EPs tend to increase with age, this doesn't mean that younger men are not affected. Modern lives are stressful and with worries over COVID, health, finances and/or work, for example, EPs can occur in adult men at any age. It is estimated that by the time a man is in his 40s, he has a 40 % chance of having some form of erection problem and this increases about 10% every decade thereafter.⁴

EPs affect around 5 million men in the UK^{6,7} and it is hoped that seeking treatment advice becomes a normal and accepted solution for customers affected. With this in mind, you might notice an increase in customers coming in to seek advice and purchase VIAGRA CONNECT in the coming months.

Benefits of good sexual health

Good sexual health is a key to a state of physical, emotional, mental and social wellbeing.⁸ Data from a survey of almost 4,000 men and women has shown that a fulfilling and enjoyable sex life is one of the most important life priorities and is associated with a positive overall outlook on life.⁹

Viagra Connect

Driving men to your pharmacy stock up now

TV Campaign designed to drive footfall to your pharmacy

Customers coming into the pharmacy to discuss EPs or purchase VIAGRA CONNECT may feel embarrassed or self-conscious, so you should always try to make them feel welcome and put them at ease.

Remember to let customers know at the start of any conversation that there is a private consultation room available in the pharmacy if they wish to discuss something in confidence.

You should be aware of the behaviors and body language that customers may show in your pharmacy suggestive of needing any help and support. Signs to look out for include:

- **Glancing** at the VIAGRA CONNECT product/display repeatedly
- **Appearing embarrassed** and/or asking about other related products/services
- **Leaving a queue** or avoiding the till when the pharmacy is busy
- **Browsing** the sexual health products available in your pharmacy for long periods of time

Additional resources

Visit www.hcp.viagraconnect.co.uk for additional e-learning resources including videos and a detailed e-module for those new to pharmacy or who need a refresher.

VITABIOTICS

CBD

The world of CBD can be confusing, and you want a brand you can really trust. Look no further. Vitabiotics CBD isolate is a food supplement made to the highest pharmaceutical quality grade.

Pharmaceutical quality grade cannabidiol food supplement

Vitabiotics CBD is extracted from *Cannabis sativa* L. (Hemp) in a highly controlled environment, for **guaranteed 99% purity** CBD isolate¹. **CBD isolate is the purest form of CBD**. Ours is tested, validated and only released once it has passed rigorous quality specifications.

Vitabiotics CBD is produced in the UK to industry leading standards and has been **tested for banned substances in sport**.

Guaranteed purity and THC Free

Tetrahydrocannabinol (THC) is a psychoactive component of the Hemp plant and is not permitted in CBD products. **Vitabiotics CBD is guaranteed THC free²**.

How much CBD should I take?

As a guide, 7 drops taken 2 times daily is recommended. After you are used to taking CBD, you can take up to 1ml (28 drops) per day, as marked on dropper, at your discretion. **See carton for full information and directions.**

99% purity CBD isolate¹

Great tasting, no bitterness

Made in Britain

Guaranteed THC free²

CBD 500mg

Vitabiotics CBD can be taken everyday for ongoing support. An ideal starter level.

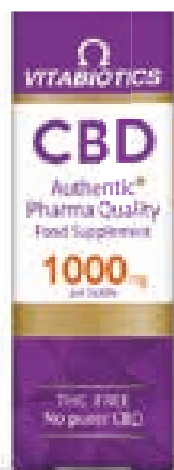

Vitabiotics Brains CBD 500mg

CBD 500mg Plus Vitamin D

With the added benefit of vitamin D3, the preferred form made in the human body.

SMA Gold Prem® 2 (Powder) format improvement

New bigger tin, same unique formulation,
specially tailored for preterm infants
post discharge

New 800g tin, same easy to digest formula

As of September 2021, **SMA Gold Prem®2** 400g tin has been replaced by our new 800g tin. Our unique formulation will remain the same.

PRICE: **SMA Gold Prem®2** remains the same per 100g

USAGE: An 800g tin lasts 4 weeks rather than 2 weeks
(based on the average size of preterm baby)

NEW ORDERING CODES FOR THE 800G TIN **PIP code (UK only): 4162418**

VISIT – **WWW.SMAHCP.CO.UK/FORMULA-MILK/GOLD-PREM-2**

IMPORTANT NOTICE: Breast milk is best for babies and breastfeeding should continue for as long as possible. This product must be used under medical supervision. **SMA Gold Prem® 2** is a special catch-up formula intended for the dietary management of preterm low birthweight babies who are not solely fed breast milk. It is a nutritionally complete formula for use on discharge from hospital or when a low birthweight formula is no longer appropriate. It is suitable for use as the sole source of nutrition up to 6 months corrected age. **SMA Gold Prem® 2** is not intended for use with newborn preterm babies, for whom fortified breast milk or a low birthweight formula such as **SMA Gold Prem® 1** is more appropriate.
