

Alcura Warehouse Christmas Schedule 2023

The last order date for guaranteed delivery before Christmas for both ambient and fridge lines is **20th December 2023** - except for postcodes not covered by LF & E.

The last order date for fridge lines for guaranteed delivery before Christmas via APC is **19th December 2023** - anything not delivered by APC by **21st December** will be re-called to ensure the cold chain is not compromised.

BAU = Business as usual operation hours.

For delivery postcodes that would usually not fall as next business day due to distance (ie, Northern Ireland, Highlands, Scotland) please note the delivery expected date may be later due to the extra delivery days usually required.

Following the 2nd January 2024 all operations will be back to business as usual except Scottish postcodes due to Scottish bank holiday.

During the Christmas period, if Alcura performs your emergency orders, these will continue to be managed as the Emergency BAU processes.
